Amit Kumar Pandey

Aspiring Data Analyst | SQL | Python | Excel | Power BI
+91-9792106561 | LinkedIn | amitkumarpandey048@gmail.com | GitHub | Gurgaon, HR

Summary

Data Analyst with 07 Months of experience in data annotation, data quality validation, and structured dataset management, supported by hands-on projects in SQL, Python, Excel, Power BI, and Tableau. Skilled in data cleaning, exploratory data analysis, visualization, KPI reporting, and identifying trends from datasets. Strong foundation in statistical analysis and machine learning with experience supporting AI/ML data workflows.

Experience

- **Data Annotator | I2V System, Gurgaon | Oct 2026 – Present**
  - Perform data quality checks to ensure accuracy, consistency, and completeness of annotated data.
  - Identify and correct annotation errors according to project guidelines and quality standards.
- **Data Annotator | ANOLYTICS, Noida | Jun 2025 – Dec 2025**
  - Annotated and categorized image, text, and video datasets for AI/ML projects.
  - Maintained data accuracy, consistency, and quality while working with large-scale datasets..

Technical Skills

Data Analysis: SQL, Python, Pandas, NumPy, Data Cleaning, EDA, Statistical Analysis
Visualization & BI: Microsoft Excel, Power BI, Tableau, KPI Reporting, Dashboard Development
Databases & Tools: MySQL, NoSQL, Git/GitHub, VS Code, Data Warehousing
Programming: Python, C, C++
Data Quality: Data Validation, Quality Assurance, Data Accuracy, Data Consistency, Reporting

Project Experience

- **AI-Powered Data Analytics & Business Intelligence Platform**
  Technologies: Python, Pandas, SQL, Excel, Power BI
  - Developed an analytics platform concept for cleaning, analysing, and visualizing business datasets.
  - Applied data analysis techniques to identify trends, patterns, and business insights.

- **Sales & Business Insights Dashboard**
  Technologies: Excel, Power BI, SQL
  - Created interactive dashboards to analyse sales performance, revenue trends, and customer behaviour.
  - Used Pivot Tables, charts, and KPI metrics for business reporting and performance tracking.

- **Crime Pattern Detection Using Historical Crime Data**
  Technologies: Python, Pandas, NumPy, SQL, Scikit-learn, Power BI
  - Analysed historical crime datasets using Python and SQL to identify trends and behavioural patterns.
  - Performed data preprocessing, cleaning, and feature engineering for analytical modelling.

Education

ABES ENGG COLLEGE Ghaziabad — Nov 2022 - July 2025
B.Tech. in Information Technology — ***CGPA: 6.9/10***
Relevant Coursework: Oops, DSA, Operating System, Machine Learning, Blockchain, Statistical Analysis.

Little Flower Polytechnic Gorakhpur — Aug 2019 - July 2022
Diploma in Electrical Engineering — **Percentage: 73%**

Technical Certifications

- Data Analytics & Visualization: Using Excel and Python •Link
- Learn Advanced Excel: Formulas, Functions, VBA Macros •Link
- Master Python Programming: Beginner to Advance •Link
- SQL: BASIC and INTERMEDIATE •Link

Achievements

- **IEEE-published research paper: "Machine Learning Algorithm for Predicting Crime Type and Occurrence"**
  Amit Kumar Pandey, Ashish Kumar Gupta, Abhishek Kumar Verma
